Continued Student Coverage Request For Medically Necessary Leave Of Absence

Your dependent may be entitled to continue student coverage for a medically necessary leave of absence. The law defines a medically necessary leave of absence as one that:

-Starts when the child is suffering from serious illness or injury*
-Is medically necessary
-Causes the child to lose student status for coverage purposes

Upon approval of a medically necessary leave of absence, students may continue to be covered as an active dependent on their parent's policy (or as an active sponsored student enrolled in their own name) for up to one year from the first date of absence or until they reach the maximum age as defined in the contract. You will receive written notification of our decision following the receipt of and review of the information requested below. Please ensure that all sections are complete, signed and dated prior to returning. Failure to supply all of the necessary information may result in delayed processing and/or subsequent denial of this request.

* Coverage for a medically necessary injury is effective for an injury that occurred on or after October 9, 2009.
